

From terra incognita to hotspot: the largest South Pacific green turtle nesting population in the forgotten reefs of New Caledonia

JACQUES FRETEY, TYFFEN C. READ, LÉA CARRON, CHRISTOPHE FONTFREYDE, AURÉLIE FOURDRAIN, JULIE-ANNE KERANDEL, VINCENT LIARDET, MARC OREMUS, MORGANE REIX-TRONQUET and MARC GIRONDOT

SUPPLEMENTARY TABLE 1 Synthesis of available data. A black cell indicates that field counts of turtle nesting activity are available for that location and season.
